KING GEORGE.

Interesting Meeting of the Choptank
Agricultural Club.

Pluck, Va., Oct. 19th, 1904.

The October meeting of Choptank Ag-
ricultural Club, of King George county,
Va., was held on the 19th instant, at
Woodstock, the summer home of Mr.
Leslie A. Grymes. Notwithstanding the
busy season with farmers, nearly every
member and several visitors laid aside
their work for the day and made it
convenient to attend. We found Mr. Grymes
an ideal host, possessing the faculty of
making his guests feel perfectly at ease.

At an appropriate hour a splendid din-
ner was served consisting of all the
delicacies of land and sea, and was much
enjoyed by all. The forenoon session
was spent in hearing the different com-
mittee reports on the work assigned
them, together with the secretary's re-
port of September meeting, while the af-
ternoon was devoted to discussing the
subject, "Care of Stock Through Winter."

This subject aroused much interest, sev-
eral giving their method and views,
which were very edifying and interesting.

Mr. Fielding L. Ashton related his expe-
rience with cattle. Saying, since his
neighbor boy, fatten and sell by the car-
load, he thought to experiment with two
head, purchasing them at an average
price twelve months ago. He fed them
most of his corn last winter. Spring and
summer came on, he found their appetites
still good, for they ate his corn and
squash, cleared up the grass and pos-
sibly, and all the salt he could buy and
in addition to this drank the springs and
streams dry, then appeared at his well
for water. He sadly added that the
poor horse will be his home should he
fail to market his beef. The discussion
then drifted toward wheat and grass
seedling, and concluded with the unani-
mous decision that alfalfa is the best
grass to raise in this section. After
voting the house closed for the entertain-
ment, we adjourned to meet at Capt.
Pollock's on first Saturday in November.

It is to be remembered that Woodstock
farm is one of Mr. Grymes' recent pur-
chases, having for years been under a
poor system of management. Mr.
Grymes partially unfolded to us his
plans for development, which we pro-
nounced good, and predict that in the
near future Woodstock will be listed
among the best farms in this vicinity.

Paralyzed—Farm Notes—The Oyster
Industry—The Roads, Etc.

Neill, Va., Oct. 19th, 1904.

A telegram received here announces
that Mr. Davis, of Salisbury, Md., father
of Mr. C. E. Davis, of this county, has
been stricken with paralysis. Mr. and
Mrs. Davis, who have just lost a son,
have the sympathy of the community in
their affliction.

Mr. Richard Johnson, of Pluck, has
been afflicted for weeks with asth-
ma and other ailments.

The farmers are pushing the wheat
sowing without interruption from mois-
ture, which, whilst giving time for the
work, will be essential for a good root
before freezing. Ground that has been
thoroughly prepared is still moist and a
good rolling will conduce to the reten-
tion thereof and stimulate the growth
should it continue dry any longer. Seed-
ing of ten days ago is coming up nicely.

The old adage, "must either hold or drive,"
is now modified to meet the changed
conditions, resulting from scarcity of
and inefficient labor, to read thus: "He that
by the plow would thrive, must both
hold and drive. Corn raised in this sec-
tion, owing to peculiar conditions of the
season, some lots on sandy soils, how-
ever, are sufficiently matured to crib."

Mr. L. N. Hoge, Jr., with wife and
mother, have gone to Washington for a
brief trip.

The dredgers are doing well, some re-
alizing from \$60 to \$80 per day, with
large crews. Tugboats and small craft
from \$4 up to \$10.

Jack Frost has been in evidence several
times lately, but owing to the condition
of the moon has inflicted no serious dam-
age yet. Weather conditions are ideal,
but that topic needs little comment with
such a scientific weather bureau to
give daily forecasts of what does not
happen.

Mr. Pendergast Ashton is completing
an addition to his home at Waterloo.

The apple crop in this section is light,
Irish potatoes abundant at from 40 to
50c per bushel; sweet, 1.25 per barrel,
have made a good yield.

Prospects for bad roads the ensuing
winter are very favorable, and with no
road system our road tax will as usual
be thrown away again. There seems no
danger likely to occur from automobiles
in this county, which will compensate
some people for the present con-
dition of roads. Enterprise.

Deafness Cannot be Cured
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure
deafness, and that is by constitutional
remedies. Deafness is caused by
an inflamed condition of the
mucous lining of the Eustachian
Tube. When this tube is inflamed
you have a running ear, or im-
perfect hearing, and when it is en-
tirely closed Deafness is the result,
and unless the inflammation can be
taken out and this tube restored to its
normal condition, hearing will be
destroyed forever; in cases out of
one are caused by Catarrh, which is
nothing but an inflamed condition of
the mucous surfaces.

We will give you Hundred Dollars
for any case of Deafness (caused by
catarrh) that cannot be cured by
Hall's Catarrh Cure. Send for cir-
culars, free. F. J. CHENEY & CO.,
